

Palace app directions:

- **Download The Palace Project App onto your iPhone or Android (You will need iOS 15.0 or newer for iPhones)**
- **Choose your library:**
Fairfax Community Library
- **Once you choose a book to download it will ask you for your password or to create a card. FCL does not have online patron cards so you will have to create a digital library card with Palace.**
- **Choose: *Create a Card* & allow the app to verify your location.**
- **Put in your email address and choose a password (*write this password down because you will need to enter it again in a few steps.*)**
- **Check your email and open verification email from Palace. *Copy the library barcode* in the email and then click on the link to verify your email address.**
- **Go back to the Palace App and enter the library barcode you copied from your email and then enter the password you chose.**
- **Now you should be able to use the app!**

From Jaquith Public Library, Marshfield, VT
